CHAIRMAN'S REVIEW REPORT

On behalf of the Board of Directors, I am pleased to present the Chairman's Review Report of Shahzad Textile Mills Limited for the financial year ended June 30, 2025.

The year under review remained challenging for Pakistan's textile sector, with global demand contraction, fluctuations in cotton prices, rising energy costs, and liquidity constraints weighing on the industry. Despite these adverse conditions, the Company delivered a commendable performance, recording 3.24% revenue growth and sustaining profitability as compare to loss in previous year through prudent cost management, operational efficiencies, and strategic sourcing.

To strengthen our competitiveness, the Company enhanced its product mix, broadened its market presence, and implemented process improvements to increase productivity and quality standards. These initiatives not only mitigated external pressures but also positioned the Company to capitalize on emerging opportunities. Moving forward, our strategic priorities will remain focused on expanding value-added textile segments, diversifying export markets, and embedding sustainable practices to align with evolving global compliance requirements.

The Board of Directors continues to uphold the highest standards of corporate governance in line with the Companies Act, 2017, the Listed Companies (Code of Corporate Governance) Regulations, and the Pakistan Stock Exchange requirements. Integrity, ethical business conduct, and transparency remain central to our governance framework, reinforced through our Code of Conduct, Whistle-Blowing Policy, and Business Ethics guidelines.

I extend my sincere appreciation to the Board for their valuable guidance, and to our management and employees for their dedication, professionalism, and resilience in delivering these results. With a clear strategic direction and a solid foundation, Shahzad Textile Mills Limited is well-positioned to navigate challenges, sustain growth, and contribute meaningfully to Pakistan's textile exports and overall economic development.

Lahore:

Dated: October 06, 2025,

MIAN PARVEZ ASLAM

Chairman

DIRECTORS' REPORT

The Board of Directors of Shahzad Textile Mills Limited takes pleasure in presenting the 47th Annual Directors' Report to the shareholders, together with the performance review, the auditors' report, and the audited financial statements of the Company for the financial year ended June 30, 2025.

"The financial results of the Company for the year ended June 30, 2025, are summarized below:"

	2025 (Rupees)	2024 (Rupees)
Sales	11,371,016,350	11,014,646,483
Gross Profit	695,207,728	517,465,997
Operating Profit	190,561,285	85,812,496
Profit before Levy and Taxation	351,232,410	82,453,852
Levy and Taxation	(193,207,066)	(181,236,830)
Net Profit / (Loss) for the year	158,025,344	(98,782,978)

During the financial year 2025, the Company achieved notable growth in sales by 3.24%, reaching Rs. 11.371 billion compared to Rs. 11.015 billion in the previous year. Profit after tax rose to Rs. 158.025 million, reflecting a remarkable turnaround from the previous year's loss of Rs. 98.783 million. This improvement demonstrates the Company's enhanced revenue generation and margin expansion during the year.

Export sales from the socks division reached Rs. 1,435.977 million, marking a strong 33.57% increase over the previous year's Rs. 1,075.091 million. However, there were no exports from the spinning unit, as compared to Rs. 29.281 million in the preceding year, primarily due to reduced global competitiveness driven by high energy costs and continued economic uncertainty.

The Company's newly introduced Employees' Provident Fund Scheme, established under the Punjab Trust Act 2020, remains under registration due to the absence of a designated regulator in the Province of Punjab. Nevertheless, the Company has prudently placed all provident fund contributions into a separate savings bank account and mutual fund investments. The returns earned from these investments are duly recorded and credited to the employees' provident fund accounts. Moreover, a comprehensive and independently maintained record of all provident fund transactions is kept by the Company.

FUTURE OUTLOOK

In view of the rising input costs—particularly escalating energy expenses—the management is actively evaluating various strategic measures to improve operational efficiency and cost competitiveness. Among these initiatives, the Company plans to secure financing from financial institutions and/or dispose of assets held for sale to fund the installation of a Solar Energy System with an approximate capacity of 2 megawatts at the mill premises.

This capital investment carries an estimated payback period of 1.75 years and is expected to have a positive and lasting impact on profitability in the coming years. The proposed disposal of the asset held for sale will not affect the Company's operational capacity.

Furthermore, the management remains committed to enhancing human capital through focused training and professional development programs. These initiatives aim to strengthen employee capabilities and ensure alignment with the Company's performance goals in an increasingly competitive business environment.

In parallel, the Company continues to foster strong partnerships with key industry stakeholders, including suppliers, customers, and service providers, to reinforce market presence, promote innovation, and achieve sustainable growth.

EARNING / (LOSS) PER SHARE

For the year ending June 30, 2025, the Company reported earnings per share (EPS) of Rs. 8.79, representing a significant improvement from the loss per share of Rs. (5.50) recorded in the previous financial year. This turnaround reflects the Company's strengthened operational performance and effective cost management strategies during the year.

DIVIDEND

Due to capital expenditure during the year the Board of Directors has not recommended any dividend for the financial year ended June 30, 2025.

The Company remains focused on enhancing shareholder value through improved profitability, prudent capital allocation, and effective cash flow management. Key strategic priorities include reducing outstanding debt, lowering financial expenses, and undertaking productive capital investments aimed at sustaining long-term growth.

The Board remains optimistic that, with continued operational improvements and a stronger financial foundation, the Company will be able to resume dividend distributions in the future.

ISO CERTIFICATIONS

ISO 9001:2015 – Yarn & Socks and ISO 45001:2018 & 45001:2015 – Socks

The Company remains fully committed to maintaining the highest standards of product quality to ensure complete customer satisfaction. In pursuit of this goal, Shahzad Textile Mills Limited has obtained and continues to uphold certifications for **ISO 9001:2015**, **ISO 45001:2018**, and **ISO 45001:2015**, covering its yarn and socks operations.

These certifications are renewed every three years following comprehensive audits and rigorous verification processes of the Company's quality management and occupational health and safety systems.

By maintaining these internationally recognized standards, the Company not only reinforces the confidence of its long-standing customers but also enhances its credibility and attractiveness to new clients in both domestic and export markets.

PRINCIPAL RISKS AND UNCERTAINTIES FACING THE COMPANY

While the Company delivered improved financial results during the year, it continues to operate in an environment influenced by various internal and external risk factors. These factors, if not effectively managed, may adversely affect future performance. The Company's risk management framework ensures that potential challenges are identified, assessed, and mitigated through robust policies and proactive oversight.

SUSTAINABILITY COMMITTEE

In accordance with Regulation 10A(5) of the Code of Corporate Governance (CCG) Regulations, 2019, the Board of Directors holds overall responsibility for formulating the Company's sustainability strategies, priorities, and performance targets with the objective of creating long-term corporate value.

While the establishment of a dedicated Sustainability Committee—comprising at least one female director—is a non-mandatory requirement, the Company intends to comply with this provision in the coming years.

At present, the Board directly oversees the Company's initiatives related to Environmental, Social, and Governance (ESG) matters, ensuring that sustainability considerations remain integrated into strategic and operational decision-making.

RISK FACTORS

A) FOREIGN EXCHANGE RISK

Foreign currency risk primarily arises from receivables and payables denominated in currencies other than the Pakistani Rupee. Company remains exposed to foreign exchange risk on trade debts, payables, and revenues that are transacted in foreign currencies.

B) LIQUIDITY RISK

Liquidity risk represents the potential inability of an enterprise to generate sufficient funds to meet its financial obligations as they fall due. The Company's exposure to liquidity risk primarily stems from the mismatch between the maturities of its financial assets and liabilities. To mitigate this risk, the Company adheres to a robust cash flow management and financial planning policy, ensuring the timely availability of funds while proactively addressing new funding requirements.

C) CREDIT RISK

Credit risk represents the potential accounting loss that may arise if counterparties fail to meet their contractual obligations. To mitigate this risk, the Company has established a structured credit approval process through which credit limits are assigned to customers. Furthermore, Management continuously monitors customer exposures and maintains provisions against balances considered doubtful of recovery, thereby ensuring prudent risk management.

D) INTEREST RATE RISK

Interest rate risk refers to the potential impact on the fair value or future cash flows of financial instruments due to fluctuations in market interest rates. The Company's exposure to this risk primarily arises from its short- and long-term bank borrowings, term deposits, savings and profit and loss accounts maintained with banks, as well as investments in mutual funds.

CHANGES DURING THE FINANCIAL YEAR CONCERNING THE NATURE OF THE BUSINESS OF THE COMPANY

There were no changes in the nature of the Company's core operations during the financial year. Shahzad Textile Mills Limited continued its activities in textile yarn and socks manufacturing, maintaining its established business lines and operational scope throughout the period under review.

MAIN TRENDS AND FACTORS LIKELY TO AFFECT THE FUTURE DEVELOPMENT, PERFORMANCE, AND POSITION OF THE COMPANY'S BUSINESS

The Board is pleased to report that the Company achieved satisfactory financial results during the year despite facing challenging macroeconomic conditions. However, the prevailing environment—marked by currency depreciation, persistent inflationary pressures, and rising input costs—continues to pose substantial risks to business performance and industry competitiveness.

To ensure sustainable growth, it is crucial for policymakers to focus on strengthening political stability, stabilizing the exchange rate, and reducing both fiscal and current account deficits. Such measures would foster a more conducive environment for industrial development and overall economic progress.

The Board further confirms that there have been no material changes or commitments between June 30, 2025, and the date of this report that could have a significant impact on the Company's financial position.

We are committed to maintaining a clean and pollution-free environment at our mills by employing advanced safety systems designed to remove fluff and other airborne particles that may pose health risks to our workers.

This internal control framework ensures robust governance and supports effective compliance with the Companies Act, 2017, and the Listing Regulations, 2019.

RELATED PARTIES TRANSACTIONS

All related party transactions during the financial year were conducted at arm's length, with pricing determined in accordance with the Comparable Uncontrolled Price Method. These transactions are duly disclosed in the accompanying audited financial statements.

The Audit Committee has thoroughly reviewed and recommended all such transactions to the Board of Directors, which subsequently granted its approval. In accordance with regulatory requirements, these transactions will be presented before the shareholders at the forthcoming Annual General Meeting for their consideration and endorsement.

The Company continues to ensure that all related party dealings are transparent, properly documented, and consistent with market conditions, thereby upholding good corporate governance practices.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and

appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting and reporting standards, as applicable in Pakistan, requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience, including expectations of future events that are believed to be reasonable under the circumstances.

These estimates and related assumptions are reviewed on ongoing basis. Accounting estimates are revised in the year in which such revisions are made. Significant management estimates in these financial statements relate primarily to:

- Useful lives, residual values and depreciation method of property, plant and equipment - Note 3.6 & 15
- Fair value of investment property - Note 3.7 & 16
- Investment in associate under equity method - Notes 3.9 & 17
- Net realisable values of stock-in-trade & store and spares - Notes 3.10, 3.11, 19 & 20
- Provision for expected credit allowance - Note 3.14.1 & 21

- Current income tax expense, provision for current tax, recognition of deferred tax asset (for carried forward tax losses) and levies - Note 9, 13 & 34
- Estimation of contingent liabilities - Note 3.5 & 14

However, the management believes that the change in outcome of estimates would not have a material effect on the amounts disclosed in these financial statements.

2.5 Changes in accounting standards, interpretations and pronouncements

2.5.1 Standards, interpretations and amendments to approved accounting standards that are effective in the current year

The following standards, amendments and interpretations are effective for the year ended June 30, 2025. The management believes that adoption of the new standards, amendments and interpretations, which are in issue but not yet effective, is not likely to have any material impact, on the recognition, measurement, presentation and disclosure of items in the financial statements for current and future periods and foreseeable future transactions.

Note 3

Material Accounting Policy Information

The material accounting policy information adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

3.1 Provisions

A provision is recognized in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

3.2 Staff retirement benefits

Defined contribution plan

The entity operates a defined contributory provident fund for its employees. Contributions are made equally by the Company and the employee at 5.5% of gross salary in the provident fund on monthly basis. Company's contribution is recognized as a cost in the profit or loss. The entity's provident fund is currently in the process of registration. The funds have been maintained in a separate designated bank account maintained by the Company and a markup @ 3-month KIBOR plus 1.25% rate is being paid by the Company.

3.3 Taxation

Income tax expense comprises current and deferred tax. Income tax is recognized in the profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case it is recognized in the statement of changes in equity, or other comprehensive income, as the case may be.

Current

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

The charge for current tax is higher of corporate tax (higher of tax based on taxable income and minimum tax) and alternate corporate tax. Super tax applicable on the Company is also calculated. However, in case of taxable loss for the year, income tax expense is recognized as minimum tax liability on turnover of the Company in accordance with the provisions of the Income Tax Ordinance, 2001.

Corporate tax is based on taxable income for the year determined in accordance with the prevailing laws of taxation. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year if enacted after taking into account tax credits, rebates and exemptions, if any. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years. Tax balances are measured using the most likely amount or expected value. Current tax assets and liabilities are offset if the Company has a legal right to do so and intends to settle them on a net basis or simultaneously.

Alternate corporate tax is calculated at 17% of accounting profit, after taking into account the required adjustments. Current tax for current and prior periods, to the extent unpaid is recognized as a liability. If the amount already paid irrespective of current and prior period exceeds the amount due to those periods the excess recognized as an asset.

The Company offsets current tax assets and current tax liabilities if, and only if, the entity has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The management periodically evaluates positions taken in the tax returns with respect to situation in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

When minimum tax is higher than tax calculated on taxable profits, excess amount is recognized as levy under IFIRC 21. Further, the Company shall also charged tax expense under levy when tax is calculated under final tax regime.

Deferred tax

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary timing differences arising from the difference between the carrying amount of the assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction neither affects accounting nor taxable profit or loss.

Deferred tax liabilities are recognized for all major taxable temporary differences. Deferred tax assets are recognized for all major deductible temporary differences, unused tax losses and tax credits to the extent that future taxable profits will be available against which the assets may be utilized.

Carrying amount of the deferred tax asset is reviewed at each reporting date and is recognized only to the extent that it is probable that future taxable profits will be available against which assets may be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent of probable future taxable profit available that will allow deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the year when the asset is utilized or the liability is settled, based on the tax rates that have been enacted or have been notified for subsequent enactments at the reporting date.

When different tax rates apply to different levels of taxable income, deferred tax assets and liabilities are measured using the average rates that are expected to apply to the taxable profit (tax loss) of the periods in which temporary differences are expected to reverse.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3.4 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within short period. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method. Exchange gains and losses arising on translation in respect of liabilities in foreign currency are added to the carrying amount of the respective liabilities.

3.5 Contingent liabilities

A Contingent liability is disclosed when there is a possible obligation that arises from past events and whose existence is confirmed only by the occurrence or non-occurrence of one or more uncertain future events not entirely within the control of the Company.

A contingent liability is also disclosed when there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits would be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

3.6 Property, plant and equipment

Owned

Items of property, plant and equipment other than land-freehold, buildings on freehold land, plant and machinery and power house are stated at cost less accumulated depreciation and identified impairment losses, if any. Land-freehold, buildings on freehold land, plant and machinery and power house are stated at revalued amount less accumulated depreciation and identified impairment losses, if any. Revaluation is carried out with sufficient regularity to ensure that the carrying amount of assets does not differ materially from their fair value. Additions, subsequent to revaluation, are stated at cost less any identified impairment loss. Surplus on revaluation of land-freehold, building on freehold land, plant and machinery and power house is recognized in equity. On disposal of particular revalued asset the related revaluation surplus is transferred to the unappropriated profit.

Cost comprises purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates and includes other costs directly attributable to acquisition or construction including expenditures on material, labour and overheads directly relating to construction, erection and installation of items of property, plant and equipment. Cost in relation to certain assets may also includes cost of borrowing during construction period in respect of loans taken for specific projects.

Depreciation on property, plant and equipment, except freehold land, has been provided for using the reducing balance method at the rates specified in Note 15 and is charged to profit or loss. Depreciation on additions is charged from the date in which the asset is available for use up to the date on which the asset is disposed off. Depreciation method, residual value and useful lives of assets are reviewed at least at each reporting date and adjusted if impact on depreciation is significant.

Maintenance and normal repairs are charged to profit or loss as and when incurred. Major renewals and improvements are capitalized. Gain or loss on disposal of property, plant and equipment, if any, is shown in profit or loss.

Capital work-in-progress

Capital work-in-progress is stated at cost less any identified impairment loss, if any. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. Cost may also include applicable borrowing costs. These are transferred to specific assets as and when these are available for use. All other repairs and maintenance are charged to statement of profit or loss during the period in which these are incurred.

3.7 Investment property

Investment property, which is property held to earn rentals and / or for capital appreciation is measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment property is measured at fair value. The change in fair value is recognised in the profit or loss. The fair value of investment property is determined at each reporting date using the current market prices for comparable real estate, adjusted for any differences in nature, location and condition. The key assumptions used to determine the fair value of investment properties are provided in Note 16.

3.8 Impairment of non financial assets other than inventories

Assets that are subject to depreciation or amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. Impairment losses on such assets are charged to the profit or loss. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Prior impairments of non-financial assets are reviewed for possible reversal at each reporting date. Where impairment loss is recognized, the depreciation / amortization charge is adjusted in future periods to allocate the asset's revised carrying amount over its remaining useful life.

3.9 Investment in associate

Associates are all entities over which the Company has significant influence but not control or joint control. This is generally the case where the Company holds between 20% and 50% of voting rights. Investments in associates are accounted for using the equity method of accounting.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Company's share of the post-acquisition profits or losses of the investee in profit or loss, and the Company's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of investment.

When the Company's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, the Company does not recognise further losses, unless it has incurred obligations or made payments on behalf of the investee company.

Unrealised gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the entity. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred.

3.10 Stores and spares

These are valued at lower of moving average cost and net realizable value (NRV); whilst items considered obsolete are written off. Net realizable value is the higher of recoverable amount and fair value less cost to sell. Cost of items in transit comprises invoice value plus incidental charges paid thereon.

3.11 Stock in trade

These are valued at lower of cost and net realizable value. Cost is determined as follows:

Raw materials	- Monthly average cost
Material in transit	- Cost comprising invoice value plus incidental charges paid thereon
Work in process	- Estimated average manufacturing cost
Finished goods	- Average manufacturing cost

Manufacturing cost in relation to work in process and finished goods comprises cost of material, labor and appropriately allocated manufacturing overheads. Net realizable value signifies estimated selling price in the ordinary course of business less necessary costs to make the sale.

3.12 Cash and cash equivalents

Cash and cash equivalents are carried at cost. For the purpose of statement of cash flows, these comprise cash in hand and cash at bank in current and savings accounts, both in local and foreign currency.

3.13 Balances from contract with customers

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional. These are carried at original invoice amount less expected credit loss based on a review of all outstanding amounts at the year end. Bad debts are written off when identified.

Contract assets

A contract asset is the right to consideration in exchange for goods already transferred to the customer. The Company recognizes a contract asset for the earned consideration that is conditional if the Company performs by transferring goods to a customer before the customer pays consideration or before payment is due.

Contract liabilities

A contract liability is the obligation to transfer goods to a customer for which the Company has received consideration from the customer. A contract liability is recognized at earlier of when the payment is received or the payment is due if a customer pays consideration before the Company transfers goods to the customer.

Right of return assets

Right of return asset represents the Company's right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. The Company updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

Refund liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have to return to the customer. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

3.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.14.1 Financial assets

All financial assets are recognized at the time when the Company becomes a party to the contractual provisions of the instrument.

a) Classification

Financial assets are classified in either of the three categories: at amortized cost, at fair value through other comprehensive income and at fair value through profit or loss. This classification is based on the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset. The management determines the classification of its financial assets at the time of initial recognition. The Company has currently financial assets that are measured at amortized cost and fair value through profit or loss.

b) Initial recognition and measurement

All financial assets are initially measured at fair value plus transaction costs that are directly attributable to its acquisition except for trade receivable. Trade receivables are initially measured at the transaction price.

c) Subsequent measurement

Financial assets measured at amortized cost are subsequently measured using the Effective Interest Rate (EIR) method. The amortized cost is reduced by impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss.

Financial assets measured at fair value through profit or loss are subsequently measured at fair value prevailing at the reporting date. The difference arising is charged to profit or loss.

d) Derecognition

Financial assets are derecognized when the contractual rights to receive cash flows from assets have expired. The difference between the carrying amount and the consideration received is recognized in profit or loss.

e) Impairment of financial assets

The Company recognizes an allowance for expected credit losses (ECLs) for all financial assets which are measured at amortised cost. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forwardlooking factors specific to the debtors and the economic environment.

3.14.2 Financial liabilities**a) Initial recognition and measurement**

Financial liabilities are initially classified at amortized cost. Such liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument and include trade and other payables, loans or borrowings and accrued mark up etc.

b) Subsequent measurement

The Company measures its financial liabilities subsequently at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in profit or loss. Difference between carrying amount and consideration paid is recognized in profit or loss when the liabilities are derecognized.

3.14.3 Off-setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position if the Company has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.15 Related party transactions

Transactions with related parties are based on the transfer pricing policy that all transactions between the Company and the related party or between two or more segments of the Company are at arm's length basis determined using the comparable uncontrolled price method except in circumstances where it is not in the interest of the Company to do so.

3.16 Revenue recognition - Sale of goods

Revenue is recognized when performance obligation is satisfied by applying the following five steps of revenue recognition:

- i) Identify the contract with a customer
- ii) Identify the performance obligation in the contract
- iii) Determine the transaction price of the contract
- iv) Allocate the transaction price to each of the separate performance obligations in the contract
- v) Recognize the revenue when (or as) the entity satisfies a performance obligation

Revenue is recognised at amounts that reflect the consideration that the Company expects to be entitled to in exchange for transferring goods to a customer. Revenue is measured at the fair value of the consideration received or receivable, and is recognised when goods are dispatched from the mill to customer whereas revenue of export sales is recognized on date of issue of bill of lading.

3.17 Segment reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components. All operating segments' operating results are reviewed regularly by the Chief Operating Decision Maker (the Chief Executive Officer of the Company) to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the chief executive officer include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly administrative and other operating expenses, and income tax assets and liabilities.

3.18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability at the measurement date in an orderly transaction between market participants in the principal, or in its absence, the most advantageous market to which the Company has access at that date. There are three levels of fair value measurement which are as under:

- **Level 1** — Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- **Level 2** — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- **Level 3** — Unobservable inputs for the asset or liability.

The Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When there is no quoted price in an active market, the Company determines transaction price by applying valuation techniques. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction. The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received.

If the Company determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, the instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is credited or charged to profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is supported wholly by observable market data or the transaction is closed out.

The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

3.19 Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

3.20 Asset held for sale

The Company presents its non-current assets and liabilities related to that asset held for sale separately from other assets in the statement of financial position. These assets and liabilities shall not be offset and presented as a single amount. The major classes of assets and liabilities classified as held for sale shall be separately disclosed either in the statement of financial position or in the notes, except as permitted by paragraph 39. The Company presents separately any cumulative income or expense recognised in profit and loss and other comprehensive income relating to a non-current asset classified as held for sale in accordance with the requirements of IFRS-5.

Note 4

Other Accounting Policies

Other accounting policies adopted in the preparation of these unconsolidated financial statements are set out below. These policies have been consistently applied to all the periods presented unless stated otherwise.

4.1 Foreign currency transactions

Foreign currency transactions are translated into Pak Rupees using the exchange rates prevailing at the dates of the transactions. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the reporting date. Foreign exchange gains and losses on translation are recognised in the statement of profit or loss. All non-monetary items are translated into Pak Rupees at exchange rates prevailing on the date of transaction or on the date when fair values are determined.

4.2 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on temporary investment of specific borrowings relates to qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are charged to the statement profit or loss in the period in which they are incurred.

4.3 Dividend distribution

Dividend distribution to Company's shareholders is recognised as a liability in the period in which the dividends are approved. However, if they are approved after the reporting period but before the financial statements are authorized for issue they are disclosed in the notes to financial statements.

The weakening of the PKR against foreign currencies would have had an equal but opposite impact on loss before tax.

(ii) Price risk

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to individual financial instrument or its issuer or factors affecting all similar financial instrument traded in the market. The Company is exposed to price risk in respect of certain investments amounting to Rs. 20.294 million (2024: Rs. Nil).

Sensitive Analysis for price risk

A change of 1% in the value of investment at fair value through profit or loss would have increase / decrease profit or loss by Rs. 0.203 million (2024: Nil) on the basis that other variables remain constant.

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

As at the reporting date the interest rate profile of the Company's interest bearing financial instruments are as follows:

	2025	2024
	Rupees in thousand	
Fixed rate instruments - Financial liabilities		
Long term financing	191,696	254,744
Floating rate instruments - Financial liabilities

Short term borrowings	550,519	809,338
Fixed rate instruments - Financial assets		
Short term investment	131,080	36,566
Floating rate instruments - Financial assets		
Bank balances in saving's account	186,766	81,331

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Carrying amounts of financial assets represent the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Long term investment	17	1,054,876	916,777
Trade debts	21	166,306	301,813
Short term investments	23	151,375	36,566
Other receivables	22	15,210	47,853
Bank balances	25	384,987	208,445
		<u>1,772,754</u>	<u>1,511,454</u>
The aging of trade debts as at the reporting date is as follows:			
Past due 1 - 30 days		148,248	291,189
Past due 31 - 60 days		14,316	1,734
Past due 61 - 90 days		3,401	663
More than 91 days		28,167	37,904
		<u>194,132</u>	<u>331,490</u>
Allowance for expected credit loss		<u>(27,826)</u>	<u>(29,677)</u>
		<u>166,306</u>	<u>301,813</u>

The Company's exposure relating to credit risk relating to trade debt is disclosed in relevant notes to the financial statement. There are no significant trade debts that are past due as at the reporting date.

Customer credit risk is managed by each business unit subject to the Company's established policies, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on an extensive credit rating scorecard and individual credit limits are defined in accordance with this assessment. The Company believes that it is not exposed to major concentration of credit risk as its exposure is spread over a large number of counter parties.

The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are operated in largely independent markets. The credit risk on liquid funds is limited because the counter parties are either banks (with reasonably high credit ratings) and trade receivables for which the exposure is spread over a large number of counter parties.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rate:

	Short term	Long term

Habib Metropolitan Bank Limited	A1+	AA+	PACRA	35,121	33,092

JS Bank Limited	A1+	AA	PACRA	80,031	21,021
				384,986	208,445

Due to the Company's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing, the management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly, the credit risk is minimal.

(c) Liquidity risk

(d) Fair value of financial instruments

Fair value is an amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences may arise between the carrying value and the fair value estimates.

As at the reporting date, the net fair value of all financial assets and financial liabilities are estimated to approximate their carrying values.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the reporting date. The fair values of all other financial assets and liabilities are not considered to be significantly different from their carrying values.

The Company classifies the financial instruments measured in the statement of financial position at fair value in accordance with the following fair value measurement hierarchy:

Level 1	Quoted market prices
Level 2	Valuation techniques (market observable)
Level 3	Valuation techniques (non market observable)

	Total	Level 1	Level 2	Level 3

انتظامی ڈائریکٹرز کی تنخواہیں انسانی وسائل و معاوضے کی کمیٹی تجویز کرتی ہے، جو بورڈ کو سفارشات پیش کرتی ہے اور بورڈ مناسب غور و خوض کے بعد ان کو حتمی شکل دیتا ہے۔

وہی نقطہ نظر غیر انتظامی اور آزاد ڈائریکٹرز کے لیے بھی اختیار کیا جاتا ہے، تاکہ تمام معاوضے شفاف، منصفانہ و مستقل ہوں۔ ڈائریکٹرز کی تنخواہ اور مراعات سے متعلق مکمل تفصیلات مالی بیانات کے نوٹ میں فراہم کی گئی ہیں۔

پائیداری اور تنوع، مساوات و شمولیت میں بورڈ کا کردار

شہزاد ٹیکسٹائل ملز لمیٹڈ تنوع، مساوات اور شمولیت کو اپنی کاروباری حکمت عملی اور اخلاقی نظریے کا لازمی حصہ سمجھتی ہے۔ کمپنی اس بات کو تسلیم کرتی ہے کہ تنوع جدت، بہتر فیصلہ سازی اور طویل المدت مسابقت میں معاون ہے۔

صنف، نسل اور تنوع

سی۔ کریڈٹ رسک (ادائیگی کا خطرہ)

کریڈٹ رسک اس ممکنہ اکاؤنٹنگ نقصان کو ظاہر کرتا ہے جو اس صورت میں پیش آ سکتا ہے جب فریقین اپنی معاہداتی ذمہ داریاں پوری نہ کریں۔ اس خطرے سے بچاؤ کے لیے کمپنی نے ایک منظم کریڈٹ منظوری کا طریقہ کار قائم کیا ہے جس کے تحت صارفین کو کریڈٹ مس دی جاتی ہیں۔ مزید برآں، انتظامیہ صارفین کی واجبات پر مسلسل نظر رکھتی ہے اور وہ رقوم جن کی وصولی مشکوک ہو، ان کے خلاف مناسب پروویژن قائم رکھتی ہے، تاکہ محتاط رسک مینجمنٹ کو یقینی بنایا جاسکے۔

ڈی۔ سود کی شرح کا خطرہ

سود کی شرح کا خطرہ اس ممکنہ اثر کی نمائندگی کرتا ہے جو مالیاتی آلات کی منصفانہ قیمت یا مستقبل کے کیش فلو پر ہائیڈرولک میں سود کی شرح میں اتار چڑھاؤ کے باعث پڑ سکتا ہے۔ کمپنی کو اس خطرے کا سامنا بنیادی طور پر اپنی قلیل مدتی اور طویل مدتی بینک قرضہ جات، مدت کے ڈپازٹس، سیونگ اور منافع و نقصان کے بینک اکاؤنٹس، اور میوچل فنڈز میں کی گئی سرمایہ کاری کی وجہ سے ہوتا ہے۔

مالی سال کے دوران کمپنی کے کاروبار کی نوعیت میں تبدیلیاں

مالی سال کے دوران کمپنی کے بنیادی آپریشنز کی نوعیت میں کوئی تبدیلی نہیں ہوئی۔ شہزاد ٹیکسٹائل ملز لمیٹڈ نے ٹیکسٹائل یارن ماسکس اور موزوں کی تیاری میں اپنی سرگرمیاں جاری رکھیں، اور پورے عرصہ کے دوران اپنی قائم شدہ کاروباری لائسنسز عملی دائرہ کار کو برقرار رکھا۔

وہ اہم رجحانات اور عوامل جو مستقبل میں کمپنی کے کاروبار کی ترقی، کارکردگی، اور پوزیشن کو متاثر کر سکتے ہیں

بورڈ کی رپورٹ

بورڈ یہ بتاتے ہوئے خوشی محسوس کرتا ہے کہ کمپنی نے سال کے دوران مشکل معاشی حالات کے باوجود اطمینان بخش مالی نتائج حاصل کیے۔ تاہم موجودہ حالات — جن میں کرنسی کی قدر میں کمی، مسلسل مہنگائی کا دباؤ، اور پیداواری لاگت میں اضافہ شامل ہیں — کاروباری کارکردگی اور صنعت کی مسابقت کے لیے نمایاں خطرات پیدا کر رہے ہیں۔

پائیدار ترقی کو یقینی بنانے کے لیے ضروری ہے کہ پالیسی ساز سیاسی استحکام کو مضبوط بنانے، زرمبادلہ کی شرح کو مستحکم رکھنے، اور مالی و جاری کھاتوں کے خسارے کو کم کرنے پر توجہ دیں۔ ایسے اقدامات صنعتی ترقی اور مجموعی معاشی بہتری کے لیے سڈ گار ماحول پیدا کریں گے۔ بورڈ مزید صحت، سلامتی اور ماحول

کمپنی کے کاروبار کا ماحول پر اثر

ہم اپنی ملز میں صاف اور آلودگی سے پاک ماحول قائم رکھنے کے لیے پرعزم ہیں۔ اس مقصد کے لیے ہم جدید حفاظتی نظام استعمال کرتے ہیں اور دیگر ہوائی ذرات کو ختم کرتے ہیں تاکہ ہمارے کارکنوں کی صحت کو لاحق خطرات سے بچایا جاسکے۔ جو وہ ہیں

داخلی مالی کنٹرولز کا توازن

کمپنی نے اپنے آپریشنز کے حجم، دائرہ کار اور پیچیدگی کو مدنظر رکھتے ہوئے ایک جامع اندرونی کنٹرول سسٹم نافذ کیا واضح طور پر دستاویزی طریقہ کار مرتب کیے گئے ہیں جن کا وقتاً فوقتاً جائزہ لیا جاتا ہے اور بدلتے ہوئے کاروباری تقاضوں کے مطابق اپ ڈیٹ کیا جاتا ہے۔

اندرونی آڈٹ کا شعبہ ان کنٹرولز کی موثریت کا مسلسل جائزہ لیتا ہے اور باقاعدگی سے اپنی رپورٹیں آڈٹ کمیٹی اور بڑے مختلف داخلی کنٹرول کو پیش کر رہا ہے۔ یہ داخلی کنٹرول فریم ورک مضبوط حکمرانی کو یقینی بناتا ہے اور کمپنیز ایکٹ 2017 اور لسٹنگ ریگولیشنز 2019 کی موثر تعمیل میں مدد فراہم کرتا ہے۔

متعلقہ فریقین کے ساتھ لین دین

مالی سال کے دوران تمام متعلقہ فریقین کے ساتھ لین دین باہمی فاصلے کی بنیاد پر کیے گئے، جن کی قیمتوں کا تعین قابل موازنہ غیر کنٹرول شدہ کے مطابق کیا گیا۔ یہ تمام لین دین ساتھ منسلک آڈٹ شدہ مالیاتی بیانات میں مکمل طور پر ظاہر کیے گئے ہیں۔

آڈٹ کمیٹی نے ان تمام لین دین کا تفصیلی جائزہ لیا اور بورڈ آف ڈائریکٹرز کو ان کی منظوری کی سفارش کی، جس کے بعد بورڈ نے ان کی منظوری دے دی۔ ریگولیٹری تقاضوں کے مطابق، یہ لین دین آنے والی سالانہ جنرل میٹنگ میں شیئر ہولڈرز کے سامنے منظوری کے لیے پیش کیے جائیں گے۔

کمپنی اس بات کو یقینی بناتی ہے کہ تمام متعلقہ فریقین کے ساتھ معاملات شفاف، مکمل طور پر دستاویزی اور ماحیث کے مطابق ہوں، تاکہ اچھی کارپوریٹ گورننس کے اصولوں کو برقرار رکھا جاسکے۔

فی شیئر آمدنی / (خسارہ)

30 جون 2025 کو ختم ہونے والے سال کے لیے کمپنی نے فی شیئر آمدنی 8.79 روپے رپورٹ کی ہے جو پچھلے سال کے خسارے فی شیئر (5.50) روپے کی نسبت ایک اہم بہتری ہے۔ یہ بہتری کمپنی کی مضبوط آپریشنل کارکردگی اور مؤثر لاگت انتظام کی عکاس ہے۔

منافع کی تقسیم

سالانہ سرمایہ کاری کی وجہ سے، بورڈ آف ڈائریکٹرز نے مالی سال 30 جون 2025 کے لیے کوئی منافع کی تقسیم تجویز نہیں کی ہے۔ کمپنی منافع میں بہتری، محتاط سرمایہ کاری، اور مؤثر کیش فلو مینجمنٹ کے ذریعے شیئر ہولڈرز کی قدر بڑھانے پر توجہ مرکوز رکھے ہوئے ہے۔ اس کے اہم حکمت عملی کے امور میں بقایا قرضوں کی کمی، مالی اخراجات کی کمی، اور طویل مدتی ترقی کے لیے پیداواری سرمایہ کاری شامل ہیں۔ بورڈ کو یقین ہے کہ آپریشن کی بہتری اور مضبوط مالی بنیاد کے ساتھ، کمپنی مستقبل میں منافع کی تقسیم دوبارہ شروع کر سکے گی۔

کمپنی کو درپیش بنیادی خطرات اور غیر یقینی صورتحال

اگرچہ کمپنی نے سال کے دوران مالیاتی کارکردگی میں بہتری حاصل کی، تاہم یہ اب بھی ایک ایسے ماحول میں کام کر رہی ہے جو مختلف داخلی اور خارجی خطرات سے متاثر ہوتا ہے۔ اگر ان عوامل کا مؤثر انداز میں انتظام نہ کیا جائے تو یہ مستقبل کی کارکردگی پر منفی اثر ڈال سکتے ہیں۔ کمپنی کا خطرات کے نظم و نسق کا فریم ورک اس بات کو یقینی بناتا ہے کہ ممکنہ چیلنجز کی شناخت، جانچ اور تخفیف مضبوط پالیسیوں اور فعل نگرانی کے ذریعے کی جائے۔

سسٹین ایبلٹی (پائیداری کمیٹی)

سی سی جی ریگولیشنز کارپوریٹ گورننس کے ضابطوں کے مطابق، کمپنی کے بورڈ آف ڈائریکٹرز پر یہ مجموعی ذمہ داری عائد ہوتی ہے کہ کمپنی کی پائیداری سے متعلق (5) کے قاعدہ 10 2019 حکمت عملی، ترجیحات اور کارکردگی کے اہداف کو تشکیل دے تاکہ طویل مدتی کارپوریٹ ویلیو (کاروباری قدر) پیدا کی جاسکے۔ اگرچہ کم کم ایک خاتون ڈائریکٹر پر مشتمل ایک مخصوص سسٹین ایبلٹی کمیٹی کا قیام لازمی نہیں ہے، لیکن کمپنی آئندہ برسوں میں اس شق پر عمل درآمد کرنے کا ارادہ رکھتی ہے۔

معاملات سے متعلق اقدامات کی براہ راست نگرانی بورڈ کے ذریعے کی جاتی ہے تاکہ (O) فی الحال، کمپنی کے ماحولیاتی، سماجی، اور گورننس پائیداری کے تقاضے حکمت عملی اور عملی فیصلوں میں شامل رہیں۔

اے۔۔۔ زر مبادلہ کا خطرہ

کمپنی تجارتی قرضوں، قابل ادائیگی رقوم اور آمدنی جو غیر ملکی کرنسیوں میں ہوتی ہیں، پر زر مبادلہ کے خطرے سے دوچار ہوتی ہے۔

بی۔۔۔ لیکویڈیٹی رسک (نقدی کا خطرہ)

لیکویڈیٹی رسک اس ممکنہ صورتحال کی نمائندگی کرتا ہے جس میں کوئی ادارہ اپنی مالی ذمہ داریاں وقت پر پوری کرنے کے لیے مناسب فنڈز پیدا کرنے سے قاصر ہو۔ کمپنی کو لیکویڈیٹی رسک کا سامنا بنیادی طور پر مالی اثاثوں اور واجبات کی میچورٹی میں فرق کی وجہ سے ہوتا ہے۔ اس خطرے سے بچاؤ کے لیے کمپنی ایک مضبوط کیش فلو مینجمنٹ اور مالی منصوبہ بندی کی پالیسی پر عمل کرتی ہے، جو فنڈز کی بروقت دستیابی کو یقینی بناتی ہے اور نئے فنڈز کی ضروریات کو پیشگی طور پر حل کرتی ہے۔

سی۔۔۔ کریڈٹ رسک (ادائیگی کا خطرہ)

کریڈٹ رسک اس ممکنہ اکاؤنٹنگ نقصان کو ظاہر کرتا ہے جو اس صورت میں پیش آ سکتا ہے جب فریقین اپنی معاہداتی ذمہ داریاں پوری نہ کریں۔ اس خطرے سے بچاؤ کے لیے کمپنی نے ایک منظم کریڈٹ منظوری کا طریقہ کار قائم کیا ہے جس کے تحت صارفین کو کریڈٹ مرس دی جاتی ہیں۔ مزید برآں، انتظامیہ صارفین کی واجبات پر مسلسل نظر رکھتی ہے اور وہ رقوم جن کی وصولی مشکوک ہو، ان کے خلاف مناسب پروویژن قائم رکھتی ہے، تاکہ محتاط رسک مینجمنٹ کو یقینی بنایا جاسکے۔

ڈائریکٹرز کی رپورٹ

شہزاد ٹیکسٹائل ملز لمیٹڈ کے بورڈ آف ڈائریکٹرز فخر کے ساتھ اپنے 47 ویں سالانہ ڈائریکٹرز کی رپورٹ شیئر ہولڈرز کے سامنے پیش کر رہا ہے، جس کے ساتھ کارکردگی کا جائزہ، آڈیٹرز کی رپورٹ اور 30 جون 2025 کو ختم ہونے والے مالی سال کے آڈٹ شدہ مالی بیانات بھی پیش کیے جا رہے ہیں۔

کمپنی کے مالی سال 30 جون 2025 کو ختم ہونے والے مالی نتائج کا خلاصہ درج ذیل ہے۔

2025 (روپے)	2024 (روپے)	
11,371,016,350	11,014,646,483	فروخت
695,207,728	517,465,997	مجموعی منافع
190,561,285	85,812,496	آپریٹنگ منافع
351,232,410	82,453,852	محصول اور ٹیکس سے پہلے منافع
(193,207,066)	(181,236,830)	محصول اور ٹیکس
158,025,344	(98,782,978)	سال کا خالص منافع / خسارہ

مالی سال 2025 میں کمپنی نے 3.24% کی قابل ذکر فروخت میں اضافہ کیا، جو 11.371 ارب روپے تک پہنچ گئی، جبکہ گزشتہ سال یہ 11.015 ارب روپے تھی۔ ٹیکس کے بعد منافع 158.025 ملین روپے رہا، جو پچھلے سال کے 98.783 ملین روپے کے نقصان سے زبردست بہتری ہے۔ یہ بہتری کمپنی کی آمدنی میں اضافہ اور منافع کے مارجن میں توسیع کی عکاسی کرتی ہے۔

جراہوں کی ڈویژن کی برآمدات 1,435.977 ملین روپے تک پہنچیں، جو گزشتہ سال کے 1,075.091 ملین روپے سے 33.57% زیادہ ہے۔ تاہم سپننگ یونٹ کی برآمدات نہیں ہو سکیں، جبکہ پچھلے سال یہ 29.281 ملین روپے تھیں، جس کی بنیادی وجہ عالمی مقابلہ بازی میں کمی، بلند توانائی لاگت، اور اقتصادی غیر یقینی صورتحال ہے۔

کمپنی کے حال ہی میں متعارف کردہ ایمپلائز پروویڈنٹ فنڈ اسکیم، جو پنجاب ٹرسٹ ایکٹ 2020 کے تحت قائم کی گئی ہے، ابھی تک رجسٹریشن کے مراحل میں ہے کیونکہ پنجاب میں اس کا کوئی مخصوص ریگولیٹر موجود نہیں ہے۔ تاہم کمپنی نے تمام پروویڈنٹ فنڈ کی رقم ایک الگ سیونگز اکاؤنٹ اور میچل فنڈز میں محفوظ کر رکھی ہے۔ اس سرمایہ کاری سے حاصل ہونے والے منافع کو ملازمین کے پروویڈنٹ فنڈ اکاؤنٹس میں جمع کیا جاتا ہے۔ اس کے علاوہ، کمپنی تمام پروویڈنٹ فنڈ کے لین دین کا ایک جامع اور آزادانہ ریکارڈ بھی رکھتی ہے۔

مستقبل کا منظر نامہ

ان پٹ لاگتوں میں خاص طور پر بڑھتی ہوئی توانائی کی قیمتوں کے پیش نظر، انتظامیہ آپریشن کی کٹاوتی اور لاگت کی مسابقت کو بہتر بنانے کے لیے مختلف حکمت عملیوں پر غور کر رہی ہے۔ ان اقدامات میں کمپنی کا ارادہ ہے کہ وہ مالیاتی اداروں سے فنڈنگ حاصل کرے اور یا فروخت کے لیے موجود اثاثوں کی نیلامی کرے تاکہ تقریباً 2 میگاواٹ صلاحیت کے سولر انرجی سسٹم کی تنصیب کی جائے۔

یہ سرمایہ کاری تقریباً پونے دو سال میں اپنی لاگت واپس کر لے گی اور آنے والے سالوں میں منافع بخش اثرات مرتب کرے گی۔ اثاثہ کی فروخت کمپنی کی آپریٹنگ صلاحیت پر اثر انداز نہیں ہوگی۔

مزید برآں، انتظامیہ انسانی سرمایہ کی بہتری کے لیے تربیتی اور پیشہ ورانہ ترقیاتی پروگراموں پر توجہ دے رہی ہے تاکہ ملازمین کی صلاحیتوں کو بڑھایا جاسکے اور کمپنی کے کٹاوتی کے اہداف کے مطابق تیار کیا جاسکے۔

اسی دوران، کمپنی اپنے اہم صنعتی شراکت داروں جیسے سپلائرز، گاہکوں، اور سروس فراہم کنندگان کے ساتھ مضبوط تعلقات قائم رکھے ہوئے ہے تاکہ مارکیٹ میں اپنی موجودگی کو مستحکم کیا جاسکے، جدت کو فروغ دیا جاسکے، اور پائیدار ترقی حاصل کی جاسکے۔
